[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Experienced Software Developer with a strong track record in web and mobile application development. Proficient in JavaScript (React, React Native, Node.js, Express.js), databases (MySQL, MongoDB), and mobile app development (iOS/Android). Skilled in building complex backend systems, front-end solutions, web services, and databases, driven by a passion for innovation and using problem-solving skills, critical thinking, and effective time management to consistently deliver creative solutions.

Work Experience

Software Developer Intern

09/2023 – Present

Cogniss

Sydney, NSW

- Helped enhance Cogniss Web's functionality using React, resulting in a 25% improved user experience.
- Developed mobile apps alongside web development to expand project capabilities and user reach, providing a seamless cross-platform experience.
- Assisted senior developers in implementing and testing new features, seamlessly merging into the codebase while collaborating closely with QA for rigorous testing and quality assurance.
- Worked on optimizing code to proactively prevent bugs, resulting in a 15% decrease in defects.
- Collaborated in daily stand-up meetings to keep the development team updated on project progress.

Full stack Developer

03/2023 - 09/2023

Rebb Tech

Sydney, NSW

- Enhanced [NexZenTalent](#) using React and Node.js, leading to a 15% better user experience and 10% faster loading times.
- Worked alongside senior developers to uphold coding guidelines, ensuring codebase consistency.
- Successfully integrated RESTful APIs, reducing data loading times by 15% for efficient data retrieval.
- Played a vital role in Git and GitHub version control management, reducing code conflicts by 30% and enhancing team collaboration.

Projects

- Successfully developed and designed a fully functional e-commerce website ([Shoe Trek](#)) with a [CMS](#), using React, Node.js, Express, and Firebase, with code available for review on [GitHub](#).
- Developing a full-stack job tracking website named JobJet using React ([GitHub](#)) and Node.js, Express, and MongoDB ([GitHub](#)).

Education

Full Stack Development Bootcamp

Dented Code

Sydney, NSW

Bachelor of Information Technology (Software Engineering)

Kent Institute

Sydney, NSW
